

# Score

---

Score is more than a basic hardwood system. We've combined dynamic technology and a classic gym aesthetic to create a sophisticated, durable surface that blows by its competition, boosting athlete safety and game-day performance.

Available in three popular Maple grades, Score's planking interlocks via a tongue-and-groove system. We've engineered it to float, which means it is flexibly connected to its subfloor, resting unadhered on force-reducing conical pads, free to breathe over time, expanding and contracting, eliminating the risk of plank buckling and facilitating free, moisture-preventive ventilation.

Built on meticulous innovation, Score delivers maximized performance and durability-promoting flotation, defying gravity so you can too.

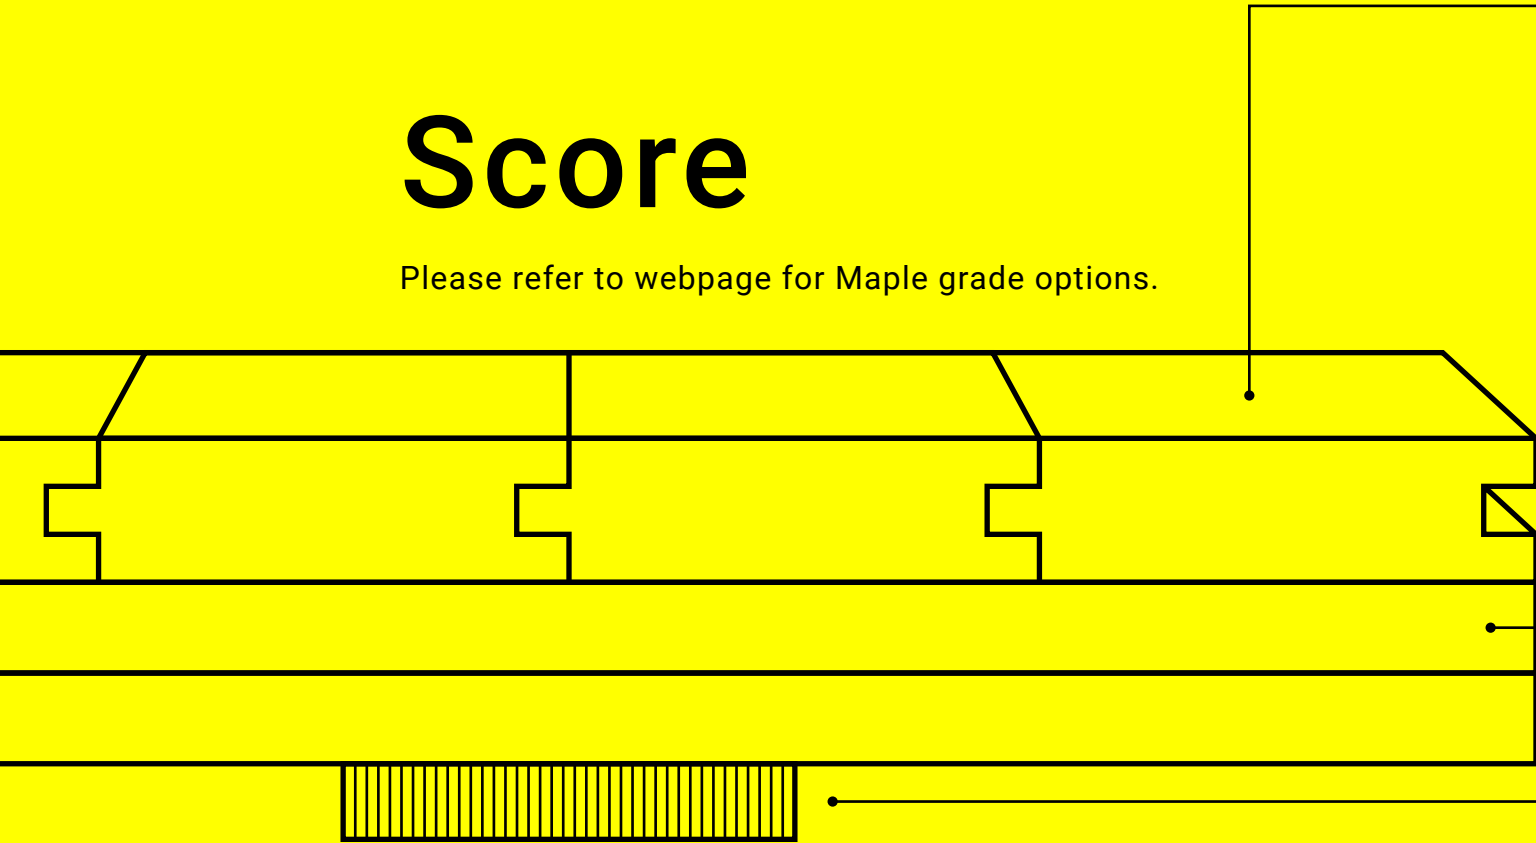

**DEFY GRAVITY.**

# Score

Please refer to webpage for Maple grade options.

Available in three popular grades, Score's premium maple hardwood planks (2.25in wide, 0.78in thick) offer familiar surface texture and a timeless gym aesthetic.

Score's dual-layer plywood subfloor provides a stable mounting substrate for the system's maple planking and connects underneath to floating conical pads, allowing easy ventilation and ensuring a familiar surface that will not buckle or weaken, regardless of age or application.

Score rests on floating conical pads, distributed throughout open subfloor space, molded to allow easy ventilation without compromising performance characteristics. Engineered to allow system breathing, conical pads also absorb shock on impact, cushioning falls and easing joint stress while simultaneously delivering ideal energy return levels for natural ball bounce and safe, predictable movement response.

## Materials

Maple hardwood (Conical Pads, Plywood, Finish, and Sealant Included)

### Plank Width

2.25in

### Plywood Thickness

2 sheets, 0.5in plywood

### Plank Thickness

25/32in

### Conical Pad Thickness

0.375in

## Spec | **Score**

### **DESCRIPTION**

**Materials:** Maple hardwood and urethane sealant (Conical Pads, Plywood, Finish, and Sealant Included)

**Attributes:** Floating multi-purpose hardwood system consists of a vapor barrier, force-reducing conical pads, plywood subflooring, and maple hardwood planks. Entire system provides shock absorption and polished maple lends a professional aesthetic that requires minimal upkeep.

### **APPLICATIONS**

Score is truly multi-purpose. Though we recommend it especially for basketball gyms, Score's timeless hardwood aesthetic lends polished sophistication to any functional space.

### **WARRANTY**

PLAE warrants that Score, when installed using its recommended procedures and adhesives, shall be free of manufacturing defects under normal use for a period of 1 year from the date of its original installation. Please refer to Score's warranty for full details.

### **PHYSICAL CHARACTERISTICS**

**Surface:** Polished maple, urethane-coated  
(Finished and Sealed on site)

**Plank Width:** 2.25in

**Plank Thickness:** 25/32in

**Plywood Thickness:** 2 sheets, 0.5in plywood

**Conical Pad Thickness:** 0.375in

**Grade 1 Maple**

**Grade 2 Maple**

**Grade 3 Maple**
