

# Score

Maple hardwood system

## CHARACTERISTICS

**A.** Available in three grades, Score's urethane-coated, premium maple hardwood planks (2.25in wide, 0.78in thick) offer familiar surface texture and a timeless gym aesthetic.

**B.** Score's dual-layer plywood subfloor provides a stable mounting substrate for the system's maple planking and connects underneath to floating conical pads, allowing easy ventilation and ensuring a familiar surface that will not buckle or weaken.

**C.** Score rests on floating conical pads, distributed throughout open subfloor space, molded to allow easy ventilation without compromising performance characteristics.

## APPLICATIONS

Score is truly multi-purpose. Though we recommend it especially for wood gymnasiums, and group exercise studios the hardwood aesthetic lends polished sophistication to any functional space.

## WARRANTY

PLAE warrants that Score, when installed using recommended procedures and adhesives, shall be free of manufacturing defects under normal use for 1 year from the date of its original installation. Please refer to Score's warranty for full details.

# Score

Maple hardwood system

Available in three Maple grades, Score's urethane-coated planking interlocks via a tongue-and-groove system. We've engineered it to float, which means it breathes over time, resting unadhered on force-reducing conical pads to avoid plank buckling and promote ventilation.

## PHYSICAL CHARACTERISTICS

**Materials:** Maple hardwood and urethane sealant

**Plank Width:** 2.25in

**Plank Thickness:** 0.78in

**Plywood Thickness:** 2 sheets, 0.5in plywood

**Conical Pad Thickness:** 0.375in
